| 1.1) I have learned a lot from this module.                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | n=5<br>av.=4.6<br>dev.=0.5 |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |
| 1.2) I think the module offered me enough variety in the form of lectures, tutorials, self-study and the like.              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | n=5<br>av.=4.6<br>dev.=0.5 |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |
| 1.3) I think the exam really tested what was taught.                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | n=5<br>av.=4.2<br>dev.=0.8 |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |
| 1.4) I am happy with the information about this module and the way it was provided.                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | n=5<br>av.=4.4<br>dev.=0.5 |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |
| 1.5) I am satisfied with the quality of the books/readers.                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | n=5<br>av.=4.2<br>dev.=1.3 |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |
| 1.6) I think the number of contact hours with teaching staff in the form of lectures, tutorials, group-work, etc. was okay. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | n=5<br>av.=3.4<br>dev.=1.5 |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |
| 1.7) On average I spent --- hours (hours of contact and selfstudy)per week on this module.                                  | <table border="0"> <tr> <td>0 - 8 hours</td> <td style="width: 100px; height: 10px; background-color: #ccc;"></td> <td style="text-align: right;">0%</td> </tr> <tr> <td>9 - 16 hours</td> <td style="width: 100px; height: 10px; background-color: #ccc;"></td> <td style="text-align: right;">0%</td> </tr> <tr> <td>17 - 24 hours</td> <td style="width: 100px; height: 10px; background-color: #ccc;"></td> <td style="text-align: right;">0%</td> </tr> <tr> <td>25 - 32 hours</td> <td style="width: 100px; height: 10px; background-color: #ccc; border: 1px solid black;"></td> <td style="text-align: right;">80%</td> </tr> <tr> <td>33 - 40 hours</td> <td style="width: 100px; height: 10px; background-color: #ccc; border: 1px solid black;"></td> <td style="text-align: right;">20%</td> </tr> <tr> <td>&gt; 40 hours</td> <td style="width: 100px; height: 10px; background-color: #ccc;"></td> <td style="text-align: right;">0%</td> </tr> </table> | 0 - 8 hours                |  | 0% | 9 - 16 hours |  | 0% | 17 - 24 hours |  | 0% | 25 - 32 hours |  | 80% | 33 - 40 hours |  | 20% | > 40 hours |  | 0% | n=5 |

| 9 - 16 hours                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 0%                         |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |
| 17 - 24 hours                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 0%                         |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |
| 25 - 32 hours                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 80%                        |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |
| 33 - 40 hours                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 20%                        |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |
| > 40 hours                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 0%                         |  |    |              |  |    |               |  |    |               |  |     |               |  |     |            |  |    |     |

2. Lectures Animal Biology - Lecture(s)

2.1) I think the lecture(s) is(are) relevant for this module.

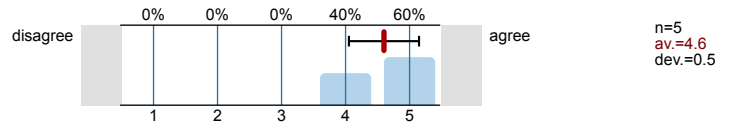

2.2) I have learned a lot from the lecture(s).

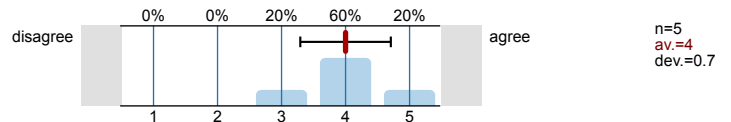

3. Tom Vingerhoets Learn on the job 2 - Lecturer

3.1) Content-wise, I think the lecturer was very good.

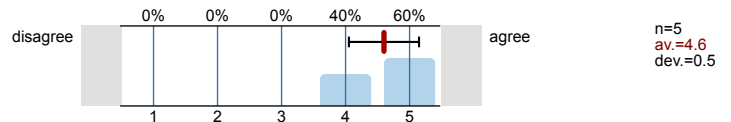

3.2) I thought the lecturer managed the learning process very well.

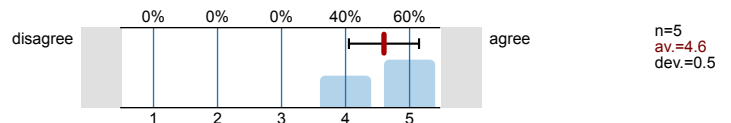

4. Annemarije Verspuy Learn on the job 2 - Lecturer

4.1) Content-wise, I think the lecturer was very good.

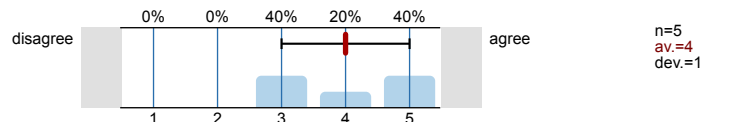

4.2) I thought the lecturer managed the learning process very well.

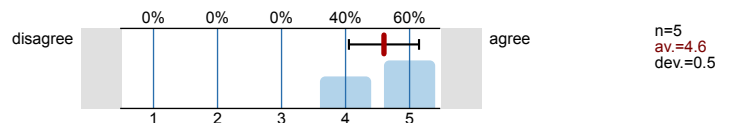

5. PBL - PBL

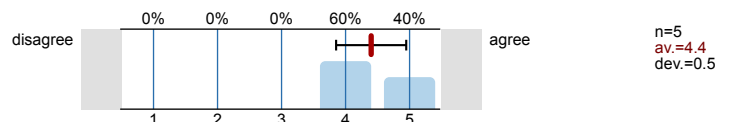

5.1) I believe PBL fits in well with this module.

5.2) I think that the PBL sessions were sufficiently challenging for me.

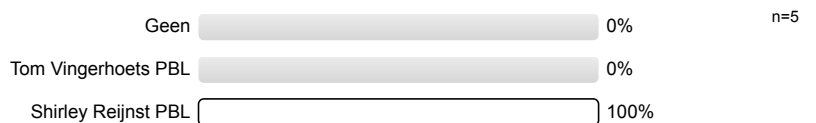

5.3) I have learned a lot from the PBL sessions.

6. Docent selectie

6.1) Kies hier van wie je de les(sen) uit voorgaande vraag hebt gehad:

7. Tom Vingerhoets PBL - PBL Supervisor

7.1) I think that the supervisor gave me useful feedback on my personal performance.

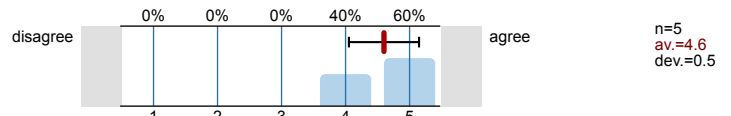

The evaluation will not be displayed due to low response rate.

7.2) I think that the supervisor was encouraging.

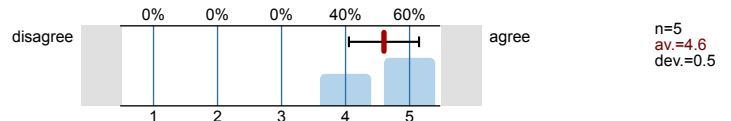

The evaluation will not be displayed due to low response rate.

8. Shirley Reijnt PBL - PBL Supervisor

8.1) I think that the supervisor gave me useful feedback on my personal performance.

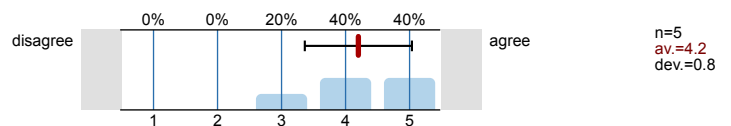

8.2) I think that the supervisor was encouraging.

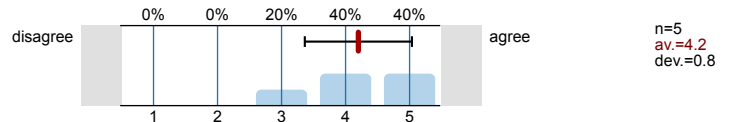

9. Practicals - Practical

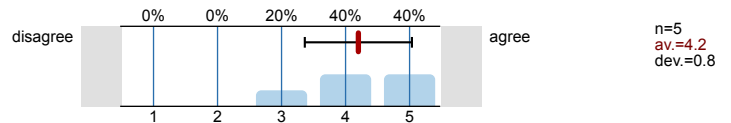

9.1) I feel the practical is relevant for this module.

9.2) I think the practical was sufficiently challenging for me.

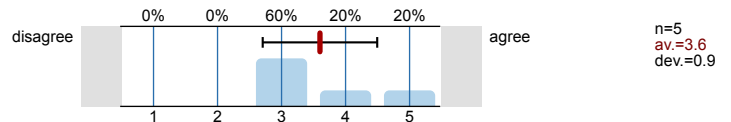

9.3) I have learned a lot from this practical.

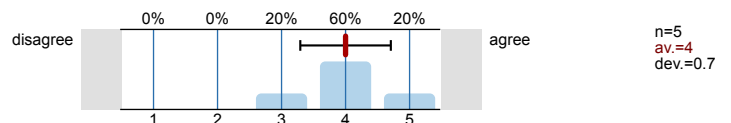

10. Tom Vingerhoets Practicals - Practical supervisor

10.1) I think that the supervisor gave me useful feedback.

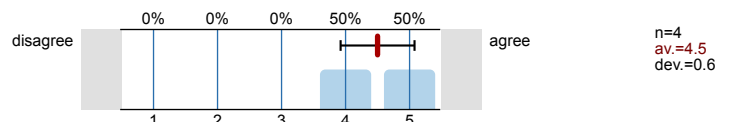

11. Annemarije Verspuy Practicals - Practical supervisor

11.1) I think that the supervisor gave me useful feedback.

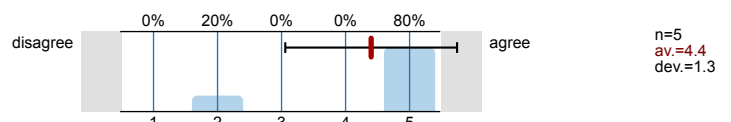

12. Sanne Meuleberg Practicals - Practical supervisor

12.1) I think that the supervisor gave me useful feedback.

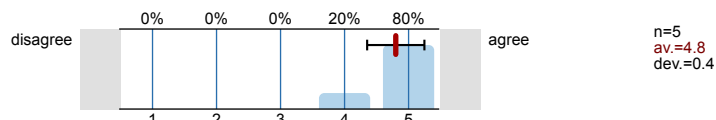

13. Traineeship - Project

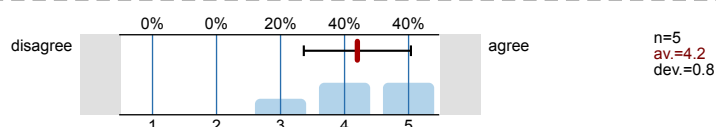

13.1) I feel the project is relevant for this module.

13.2) I think the project was sufficiently challenging for me.

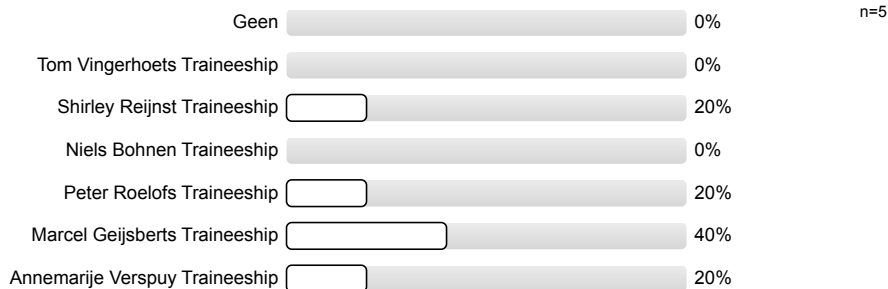

13.3) I have learned a lot from this project.

14. Docent selectie

14.1) Kies hier van wie je de les(sen) uit voorgaande vraag hebt gehad:

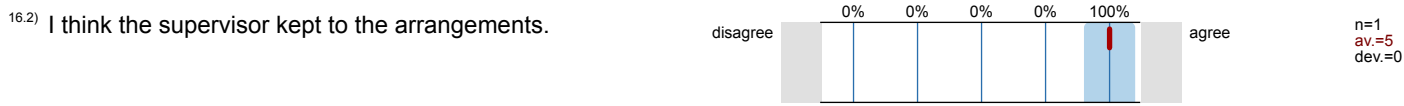

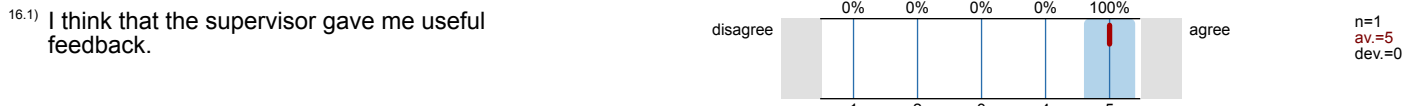

15. Tom Vingerhoets Traineeship - Project supervisor

15.1) I think that the supervisor gave me useful feedback. The evaluation will not be displayed due to low response rate.

15.2) I think the supervisor kept to the arrangements. The evaluation will not be displayed due to low response rate.

16. Shirley Reijnt Traineeship - Project supervisor

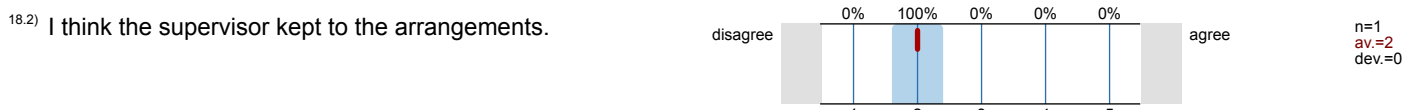

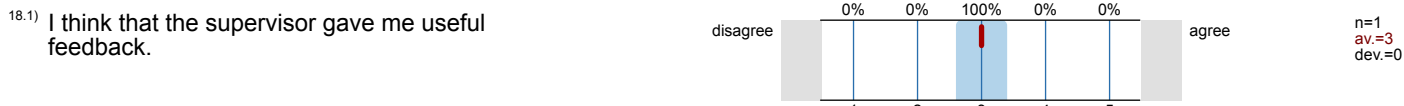

17. Niels Bohnen Traineeship - Project supervisor

17.1) I think that the supervisor gave me useful feedback. The evaluation will not be displayed due to low response rate.

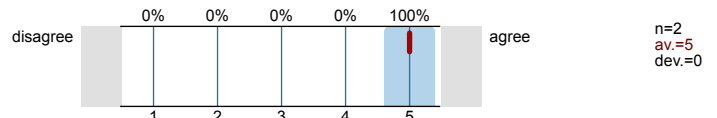

17.2) I think the supervisor kept to the arrangements. The evaluation will not be displayed due to low response rate.

18. Peter Roelofs Traineeship - Project supervisor

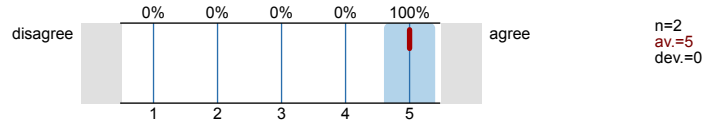

19. Marcel Geijsberts Traineeship - Project supervisor

19.1) I think that the supervisor gave me useful feedback.

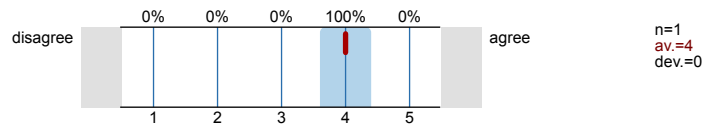

19.2) I think the supervisor kept to the arrangements.

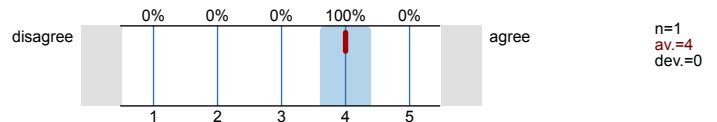

20. Annemarije Verspuy Traineeship - Project supervisor

20.1) I think that the supervisor gave me useful feedback.

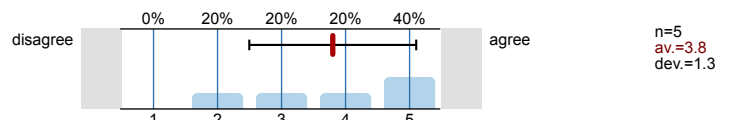

20.2) I think the supervisor kept to the arrangements.

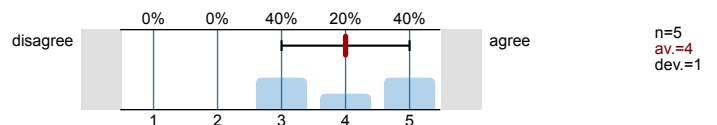

21. Lectures Statistics - Lecture(s)

21.1) I think the lecture(s) is(are) relevant for this module.

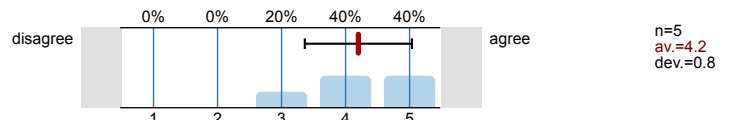

21.2) I have learned a lot from the lecture(s).

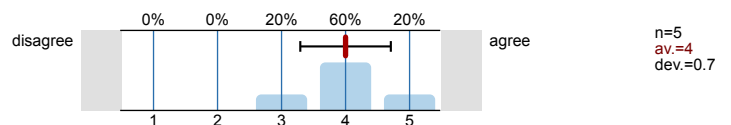

22. Erno Kuiper Lectures Statistics - Lecturer

22.1) Content-wise, I think the lecturer was very good.

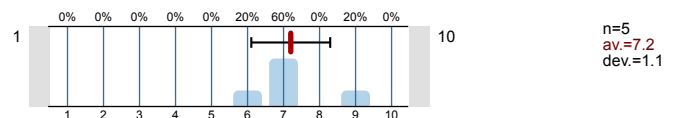

22.2) I thought the lecturer managed the learning process very well.

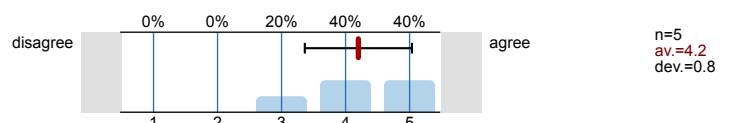

23. Learn on the job 2 (IV1408\_21) - In conclusion

23.1) My final mark for the module as a whole would be...

23.3) This questionnaire is sufficiently clear to me.

## Comments Report

## 3. Tom Vingerhoets Learn on the job 2 - Lecturer

3.3) For the lecturer I have got the following advice and/or compliment:

- The content is very interesting but also very hard. At times it's hard to keep up, but time is limited and sometimes there's no time to explain everything properly. This makes it harder to understand everything, I have the feeling that sometimes there is too much crammed into one lecture.

## 4. Annemarije Verspuy Learn on the job 2 - Lecturer

4.3) For the lecturer I have got the following advice and/or compliment:

- Everything is well-explained, lectures are interesting.

## 8. Shirley Reijnt PBL - PBL Supervisor

8.3) For the supervisor I have got the following advice and/or compliment:

- Advice given during the PBL sessions was very useful. However I think that 2 PBL's was too much for this module.
- I liked how Shirley steered us during the process

## 10. Tom Vingerhoets Practicals - Practical supervisor

10.2) For the supervisor I have got the following advice and/or compliment:

- Feedback wasn't really given. Explanations on beforehand of the practicals was good.

## 11. Annemarije Verspuy Practicals - Practical supervisor

11.2) For the supervisor I have got the following advice and/or compliment:

- The ethical discussions are a good adding to the practicals

## 12. Sanne Meuleberg Practicals - Practical supervisor

12.2) For the supervisor I have got the following advice and/or compliment:

- The support of Sanne during the practicals is clear and useful

## 18. Peter Roelofs Traineeship - Project supervisor

18.3) For the supervisor I have got the following advice and/or compliment:

- React on your mail when someone tries to contact you, have more contact with other supervisors about how they do it. You're the researcher, I got the feeling that I could learn a lot more from you than I do at the moment. If every other student has an appointment with its student to discuss the plan of action and we do agree to have an appointment, I sent my schedule, but you just didn't react and in the end, you said it was not meant that a student discusses his plan of action with his supervisor. I hope next block our contact can be nicer and that I can learn a lot from you. I want to learn how to do a proper research project, but if I don't get the guidance that is necessary to learn this, I can also not develop it.

## 19. Marcel Geijsberts Traineeship - Project supervisor

19.3) For the supervisor I have got the following advice and/or compliment:

- Feedback of Marcel was detailed and useful. However I haven't received my final grade yet for the plan of action.

**22. Erno Kuiper Lectures Statistics - Lecturer**

<sup>22.3)</sup> For the lecturer I have got the following advice and/or compliment:

- I think the statistics are very hard but useful - not often, but they can be. Especially for my research they are useful. It's good that it's an open book exam, because everything we have to learn is really a lot. It's nice that Erno really takes the time to explain things.

**23. Learn on the job 2 (IV1408\_21) - In conclusion**

<sup>23.2)</sup> For this module I have got the following advice and/or compliment:

- Overall this block has brought too much workload
- The module surely was interesting, but the workload was way too high. Especially in combination with the traineeship and the research. Plus the fact that the biology exam was moved to the Friday before the exam week. All together the high workload had a negative impact on my quality of work.
- The module was way too busy looking to the combination with the module agrifood chains and with the traineeship. I want to deliver quality, not quantity. In this block, I got the feeling that I only had to deliver quantity and this is not good. Look to this and look how you can make the workload less.
- The overall combined workload, in conjunction with other modules, was sometimes a lot and i felt disappointed on a few occasions when going to lectures, PBL's and the lab feeling unprepared.
